As far as I know and can find, the staffing site and staffing library were the only places where the DNC list appeared. I think we can consider this done unless anyone knows of additional places where this list lives/has lived internally...

I've just removed the documents from the staffing library. Alex has deleted the links on the staffing site.

Linh-Chi,

I have just rec'd approval to remove the Do Not Call list anywhere that it appears. It should be completely redacted/withdrawn from anywhere that it appears. Who should be on point for that, and who can confirm that it has been taken down?

I have already pinged Alex C about this.

Thank you!
